Dear Dr. Warren,

I would like to thank you for your review. It was amazing! About 60 to 70% of my questions were from your review. I was also writing you to send some of the questions that I remembered from my test.

1. How often is the releasing unit from inhaled insulin changed? 2 weeks (I had no idea, but I looked up the answer in the PI)
2. Dosage forms of Zyvox? I think it was all 3. Tablet, syrurp, and solution for IV. K-type of question.
3. I had several questions about Retin-A. Some were K-type about the MOA and what it does to your skin, make it red, photosensitivty, ect.
4. How often you give Tussinex? Its every 12 hours. It was in a profile type of question and the DR. had written it every 4 to 6 hours and you had to recognize this was incorrect.
5. A lot of stuff on the colostomy bags and all of that. The super NAPLEX review covers a lot of it, but there was 1 question that I wasnt sure about and I cant really remember how it was worded.
6. DHE-45 dosage forms: Injection and Nasal
7. Which one is on Oxidation agent: I know that it was one with Asorbic Acid or one of those in its names.
8. A few herbal questions: Coenzyme 10 is use for what: Heart ; Ginger is used for what: Nausea; What do you use for Hot Flashes: Black Cohosh; What is causing the patients high AST's: Kava Kava.
9. ISN question about using Vitamin B6 and what is the major side effect: neuropathy.
10. This question about dopamine and what it can not be mixed in. It was a K-type of question and I had no clue. I know that the first one was Sodium Bicarb, I think the second one was sodium chloride (maybe) and the 3rd was D5W (maybe). But I had no clue what the answer was.
11. The dosage form of TCN and if it was dosed correctly from the RX. It was 250 mg and I am pretty sure it was BID. I thought that it was correct, but then again I am not sure.
12. The MOA of statins, but it has nothing to do with HMG-A. The answer was something about the hepatocellular decrease in LDL or something like that.
13. A patient had a several chemo agent about 5 years ago and one of them was Doxurubicin and the question asked what toxicity the patient had to worry about now. I put cardio, but not sure if this is correct or not b/c Vinca was also on there but I thought Vinca was more dosed related at the time of chemo and not 1 that you would have to worry about later on.
14. Dopamine and what to use for extravascular problem
15. Rifampin and how it can be used for mennicocal
16. Which one of that agents comes a blue liquid. I wasnt sure about this one, but there was an answer that I recognized and I it started with a M. I am sorry I dont remember more.
17. I had several asthma and GERD questions. Know what can make GERD worse. (NSAIDS, smoking, laying down after eating, ect)
18. What is the generic for Topicort. I had this question 2 times.
19. MOA of colchicine.
20. Why do you not give someone with asmtha ASA? the answer was that it increases the leukocytes.
21. From a elderly patient profile, patient was on Xanax and was asking what else could be used for a relaxing agent or something like that. Ativan and Buspar were both on there. I chose Buspar but I dont know if this is correct or not b/c Ativan is one of the Benzo's that does

conjugation.

22. What is used for Super Ventricular Tachycardia? Adenosine

23. Which table can not be crushed and put in a G-tube. I think that Docusate was on there, and that was what I chose.

24. I only had like 10 math problems and I thought that they were all pretty easy. No e-values, mEq, mMol, mOsmol, or anything like that.

25. Lupron is what? the answers were kinda weird no of them had anything about Gonalatropions in it, but there was one on there about it doing something with hormones or something like that and that is the one that I chose

26. The patient was wanting to be changed over to Tegertol XL and what was the correct dosage form. I either put 200 mg BID or 400 mg BID. I really cant remember which one I put. But some of the choices were QD.

27. Patient is wanting to stop smoking what can you suggest. I put Commit and Nicorite. It was K-type and Zyban was the 3rd.

28. Question about how long do you treat for Impetigo, I put at least 5 days.

29. What is the major cause of otitis media. S. pneumo

30. What is the major cause of impetigo: S. aureas

31. How often do you change the NTG patch. I put every 12 hours. I wasnt sure if this was correct or not.

32. What is causing the babies diaper rash and it was the Candidais

33. What do you use to treat this. Mycolog cream

34. What is in Mycolog cream

35. What do you tell the mother of the baby with the diaper rash to help the rash? Expose it to air as much as possible

36. Mycolog cream and how it is used in colostomy bag problem.

37. There was a question about drug A and drug B. Drug A (I think that it gave you a name) increase HR and BP and so did Drug B. But you had to chose what is Drug B most like. The answer was Dopamine.

38. The poison ivy K-type of question about what can be used to treat it. Hydrocortison, Witch Hazel and Calmonid. It was all 3

39. What is Calomide? An astrigent, anithistimine, both and some other choices. I chose astrigent. Dont know if that was correct or not.

40. Retrovir comes in what dosage forms. K-type all 3, IV, caps, and tablets.

41. Truvuda and what is in it.

42. Trivizida and what is in that.

43. Patients CD level was 175 and you had to recognize that you the patient was being treated with Zithromax for MCV. The question was what should you stop treating for and it was MCV and what drug should be stopped and it was Zithro.

44. If the patient was allergic to Sulfa what else could be used to treat CMV.

45. What else are you treating for when you treat CMV? the other fungus

I am sure there are a lot of things that are misspelled. I am the worlds worst speller. Sorry! That is all that I can remember right now, but if anymore comes to me I will send them to you. I just want to thank you for your review. I hope that I did pass the NAPLEX, but your review was right on target! I was on question 125 by the break and I know that it was b/c of your review. Thank you so much. I hope that you are having a good summer and I will let you know of anymore that I remember.

Thanks,
Chrissy Young
